

— we help people achieve healthy skin

**ADCO Contracting and Civil Engineering Ltd**

To whom it may concern

ADCO have completed 3 construction projects on our site over the last 12 months. The projects varied from construction and equipment installation in critical plant room, to warehouse/storage building to high spec office building.

The ADCO team managing these projects were Joe Doorley and Barry Downes. All the projects met the delivery target and ACO work has been to a consistently high standard.

I would have no hesitation in recommending this ADCO team to other clients for similar work.

Yours sincerely,

**Martin Carmody**
