Re: Reference for ADCO

To whom it may concern,

ADCO Contracting & Civil Engineering were the main contractor for the fit-out of 20,000sq.ft of office space in 75 St. Stephens Green, Dublin 2 for a client of ours, Hedgeserv Ltd. The works consisted of working in a live environment, intensive M&E works, some structural works which were required to be undertaken out of hours and the installation of new partitions, glazing units and canteen areas.

ADCO have completed this and other projects for our Project Management Team and we have always found them very proactive, paying great attention to detail & finishes. We find that their team is always attentive and conscious of safety, programme and quality on site. Most importantly ADCO interacted very positively with our client.

As a result of the Hedgeserv project we have appointed ADCO on a number of other projects and will include them in any tender process going forward. We would have no hesitation in recommending ADCO to any of our other clients.

Yours sincerely,

A handwritten signature in blue ink that reads 'Tomás Kilroy'.
