**ADCO Contracting and Civil Engineering Ltd.**

We have just recently completed a construction project at our site in Dublin where ADCO were appointed as the main contractor. This construction project required a totally new building to be constructed and commissioned for pharmaceutical production in less than 3 months. ADCO met the delivery target and their work was to the highest standard.

ADCO have been excellent in their planning, attention to detail, understanding of their H&S duties and most of all in their co-operation to work with the customer.

I would have no hesitation in recommending ADCO to other clients for similar work.

Yours sincerely,

**Martin Carmody**
