

07 September 2011

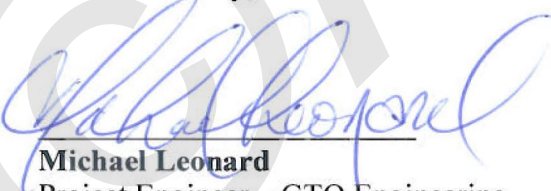

To Whom It May Concern:

We have contracted ADCO Contracting & Civil Engineering Limited on a number of projects over the last eighteen months. They have carried out the work in a professional manner and demonstrated a clear understanding of all the requirements associated with Health & Safety, Quality Control and Work Methodologies that are associated with working within a Pharmaceutical environment.

They have completed a various number of projects for us on site including a number of facility improvement projects internally and externally. We are currently planning a number of projects in our Bulk Tabletting Suite that will be completed over our October shutdown; ADCO have been awarded responsibility for all aspects for this work as main contractor.

ADCO Contracting & Civil Engineering Limited have been meticulous in their planning and attention to detail; they endeavour to complete projects on schedule and within budget. I would have no hesitation in recommending ADCO to any other client.

Yours Faithfully,

Michael Leonard
