To Whom It May Concern

ADCO Contracting & Civil Engineering Ltd. were the Main Contractors for the Biotrin International pharmaceutical facility upgrade works in Sandyford, Co. Dublin.

ADCO completed all works including the M&E upgrade and new clean rooms ahead of program and within budget and to a high standard of workmanship. The overall contract value was approx €1 million. ADCO has subsequently been requested to complete additional works at the facility which are now underway.

During the works ADCO demonstrated a pro-active, can do approach and the management team contributed significantly to the success of the project. At all times throughout the contract we found ADCO to be obliging, mindful of all H&S issues, attentive to the clients needs and prepared to put in the time and resources necessary to produce the end result.

We would have no hesitation recommending ADCO Contracting & Civil Engineering Ltd to other clients.

Yours faithfully

Niall Kearney B.Eng., C.Eng., MIEI, Eur.Ing. Managing Director
